

Offline Playable Games

SOFU Passport Trek (Stamp Game)

Passport Trek is a progression-style game where each participant (or team) “travels” through SOFU content and earns stamps as they complete categories/lesson and levels (COV, CRA, CRO, COM, NOG, TS). It works beautifully for workshops, youth groups, retreats, and instructor-led cohorts because learners can *see* their progress as they move from Level 1 to Level 3. Use the **Master Tracker** to record stamps/levels earned across sessions—either per individual or per team. **Copies of the offline boards and trackers may be made for dissemination for in-person use.**

For gameplay, you can run it **solo** (personal growth + accountability) or in **teams of 2–3** (high engagement, easy to manage). A strong event format is a playoff-style tournament: use **three brackets** that lead into a final round, with knockout advancement based on correct answers, completion, or point totals. This format keeps the room moving, prevents long wait times, and makes it simple to run multiple rounds without heavy materials.

GRinCH (GRid IroN CHallenge) Game

GRinCH is a fast-paced grid-board challenge designed for review, recall, and teamwork. Instructors call a **number (“Counting Your Days”)**, teams locate the matching square on their GRinCH cards (now **1A/B, 2A/B, 3A/B**), then respond quickly to earn credit. When a team completes the win condition, they call out **“GRinCH!”** to signal a verified win.

You can also run a “Black Out” mode: teams must complete and correctly validate **all** required answers—then they call **“Nailed it!”** (a fun nod to “Jesus paid it all”). For capturing answers, the most economical option is paper; the most reusable/eco-friendly is **small dry erase boards, chalkboards, or flip charts**. These methods reduce confusion, let you verify responses quickly, and make it easier to award points for both **accuracy** and **speed**. Copies of the offline boards may be made for dissemination for in-person use, and the **Master Tracker** can be used to record wins and progress by player or team.

The Grid Grind Challenge

How it works:

- Leader calls a CATEGORY + LEVEL (1 = easy, 2 = medium, 3 = challenge) and reads ONE question.
- If you answer correctly, you may mark ANY square on your card with that exact tag (example: [COV-2]).
- If you miss it, you cannot mark that tag this round.
- First to Yell “GRinCH” (5 in a row) wins. “Nailed It” is a **BLACK OUT** card. Keep playing to earn all stamps.

Stamp rule (re-playable):

To earn a lesson stamp, your team must get a correct answer at Level 1, Level 2, and Level 3 for that category (collect 1–2–3).
